If the survey is for a liner, please ensure that the old liner and all water is removed from the pool prior to the site visit. Failure to do this will incur additional cost and/or delays.

Please note that the site visit is in order to gather enough information to evaluate the possibility of lining the above pool to an acceptable standard. This is not a commitment to producing the liner as alterations to the pool or lining system may be necessary. The site visit will be charged irrespective of the liner order as per our current price list.

If you need to cancel your survey, please email orders@plasticapools.net at least 48 hours prior to the survey taking place or charges may apply.

This form must be completed and returned before the site visit.
