Quality Manual QP 15: Handling, Storage, Packaging, Preservation and Delivery QP 10: Inspection and Testing

4. **RESPONSIBILITY**

Returns/Warehouse People:	Identification and inspections on receipt of goods and correct handling and storage. Communication with customer of any damage lost items, etc.
	~

Manufacturing People:

Correct handling during production

5. METHOD

Handling

On arrival at our factory any product supplied/returned by our customers will be identified with a label. The name of the customers and the product will be stored in a designated area of the factory according to QP 15: "Preservation and Handling of the Product". Goods In/Returns people will check the goods on receipt according to QP 8 "Receipt of Goods" to ensure that the delivery matches the description of the goods, that quantities are correct and that the condition of the goods when received is noted.

Customer supplied product will maintain its identifying label until it is incorporated into our production process. "Job Sheets" will record when customer supplied product has been used.
