

# **RISK ASSESSMENT**

Title: Legionnaires Disease						Date of Assessm	nent:	22/08/2019	9	Risk Assessor:	lan Warne		
Reference Number: RA57 Ve			ersion N	umber:	2	People involved	in ma	king this as	ssessmer	nt: Ian Warne			
Task/Process: Preventing Legionnaires Disease						People at Risk: Employees, Visitors and Contractors							
Docur	nents Ass	sociat	ed with this Risl	( Ass	essment			Test Pool Weekly C Run and Disinfect,	hecks	s, Pumps Wa	ater Tank	Weekly Checks,	Water Treatment Weekly
<b>Review Date</b> : 30/07/24		7/24	Revi	ewer:	: Ian Warne				Next Review Date:		30/07/25		
Hazar	Hazard: Legionnaires Disease – Moulding Risk of contracting Legionnaires Disease which could lead to death. Risk to employees, visitors and contractors.												
Contr	ol Measur	es:			I								
1.	Extrusion (	Chiller	(inside) is kept be	elow 1	l2°c								
2. I	Extrusion (	Chiller	(inside) tank is re	gularl	ly tested	and doci	ımer	nted					
								ent external contra	ctor ar	nd document	ted		
			(inside) is a parti										
5. I	njection M	louldir	ng Chiller (outside	) is ke	pt below	12°c							
							ar by	a competent exter	nal co	ntractor and	documer	nted	
7. I	njection M	louldir	ng Chiller (outside	) is a	fully close	ed syste	n						
8. /	Annual dra	aining	of the chiller wate	r stora	age tank	•							
8. Information, Instruction, Training and Supervision													
		naires	Disease – Servic	е			ng L	egionnaires Diseas	e which	ch could lead	d to death	. Risk to employ	ees, visitors and
				contrac	tors.								
Control Measures:													
1. Weekly checks conducted and documented													
2. Information, Instruction, Training and Supervision													
				Risk of contracting Legionnaires Disease which could lead to death. Risk to employees, visitors and contractors.									
Contr	ol Measur	es:											
Weekly checks conducted and documented													

## **RISK ASSESSMENT**

2.	Annual drain and clean	
3.	Information, Instruction, Training and S	Supervision
Haz	ard: Legionnaires Disease – Water	Risk of contracting Legionnaires Disease which could lead to death. Risk to employees, visitors and
Trea	itment	contractors.
Con	trol Measures:	
1.	Showers run and disinfected weekly a	ind documented
2.	Eight eyewash pipes flushed through	
3.	Information, Instruction, Training and	Supervision
		·
	ard: Legionnaires Disease – Air	Risk of contracting Legionnaires Disease which could lead to death. Risk to employees, visitors and
Con	ditioning Cooling Units	contractors.
Con	trol Measures:	
1.	Serviced a minimum of twice a year by	y a competent external contractor and documented
2.	Information, Instruction, Training and S	Supervision

### **RISK ASSESSMENT**

### **HOW TO CALCULATE A RISK RATING**

SEVERITY

5	10	15	20	25
4	8	12	16	20
3	6	9	12	15
2	4	6	8	10
1	2	3	4	5

### LIKELIHOOD

Risk rating	Action and timescale				
15 and above	Unacceptable				
	Work may not start. Additional controls must be				
	introduced to reduce risk rating to below 9.				
9-14	Tolerable				
	Additional controls must be introduced as soon as				
	possible.				
5-8	Tolerable				
	Additional controls may be needed				
4 or below	Acceptable				

Likelihood	Severity
1 = extremely unlikely	1 = very minor injury
2 = unlikely	2 = first aid injury
3 = possible	3 = lost time injury
4 = likely	4 = hospital treatment
5 = very probable	5 = disabling injury

1-4 =	Low risk
6-9 =	Medium risk
10-25=	High risk
