

Safe System of Work

OPERATING AND SAFETY INSTRUCTIONS FOR CAROUSEL BRAKE

Name: Training Date:.....

1. When applying brake,

make sure Carousel is switched OFF as pictured button below

2. Position at the end of the reel, with metal prongs either side of the Carousel hook, as per below picture

3. Close brake and tighten wing nut for required grip as per picture. Take care not to trap fingers. Avoid over tightening as this will prevent material feeding correctly.

4. Do not overload the Carousel bars, refer to attached label/ manual for maximum weight limits.
5. Avoid wearing loose clothing, keep hands and hair clear when rotating the Carousel.
6. Do not operate unless fully trained or being supervised.

I have received the above training and fully understand every point that was explained to me. I confirm that I will wear the required PPE equipment when using the above machinery and take all steps to ensure my own safety. I will ask for further training if I need to and will immediately inform the Supervisor or Manager if there are any issues with the machinery.

Name:

Signed: Date:.....

I confirm that I have trained the aforementioned person and that they fully understand how to use the above machinery, have received the required PPE equipment and know to inform me immediately of any issues with the machinery or if they require further training. I authorise this person to use the machinery detailed above.
