## Safe System of Work OPERATING AND SAFETY INSTRUCTIONS FOR ALL JIG SAWS

1 Explained that safety equipment must be used at all times and why - goggles, ear protection and dust extraction (where assessed as possible) must be provided and used.  2 Explained why we don't wear loose clothing and tie back long hair when operating the router.  3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings  4 Explained how to change a blade  5 Explained why the operator should set the speed and pendulum when using to cut wood.  6 Explained how to level and square the foot of jig saw  7 Explained how to level and square the foot of jig saw in good working order.  8 Explained how to use the fence attachment  9 Explained how to switch off the band saw properly. And never to leave switch on while unattended  10 Explained why it is important not to use blunt blades and damaged attachments.  11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes, and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to me. confirm that I will wear the required PPE equipment when using the above machinery and tak teps to ensure my own safety. I will ask for further training if I need to and will immediately in the Supervisor or Manager if there are any issues with the machinery.  Idame:  Confirm that I have trained the aforementioned person and that they fully understand how to the above machinery, have received the required PPE equipment and know to inform me mmediately of any issues with the machinery or if they require further training. I authorise thierson to use the machinery detailed above.  Idame:		Instruction	Understood ✓ or X
extraction (where assessed as possible) must be provided and used.  2 Explained why we don't wear loose clothing and tie back long hair when operating the router.  3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings  4 Explained how to change a blade  5 Explained why the operator should set the speed and pendulum when using to cut wood.  6 Explained how to level and square the foot of jig saw  7 Explained what maintenance is required to keep jig saw in good working order.  8 Explained how to use the fence attachment  9 Explained how to switch off the band saw properly. And never to leave switch on while unattended  10 Explained why it is important not to use blunt blades and damaged attachments.  11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes. and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to me. confirm that I will wear the required PPE equipment when using the above machinery and tak teps to ensure my own safety. I will ask for further training if I need to and will immediately in the Supervisor or Manager if there are any issues with the machinery.  Jame:  Confirm that I have trained the aforementioned person and that they fully understand how to the above machinery, have received the required PPE equipment and know to inform me mediately of any issues with the machinery or if they require further training. I authorise the terson to use the machinery detailed above.	1		
provided and used.  2 Explained why we don't wear loose clothing and tie back long hair when operating the router.  3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings  4 Explained how to change a blade  5 Explained why the operator should set the speed and pendulum when using to cut wood.  6 Explained how to level and square the foot of jig saw  7 Explained what maintenance is required to keep jig saw in good working order.  8 Explained how to use the fence attachment  9 Explained how to switch off the band saw properly. And never to leave switch on while unattended  10 Explained why it is important not to use blunt blades and damaged attachments.  11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes. and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to me. onfirm that I will wear the required PPE equipment when using the above machinery and tak teps to ensure my own safety. I will ask for further training if I need to and will immediately in the Supervisor or Manager if there are any issues with the machinery.  Idame:  Confirm that I have trained the aforementioned person and that they fully understand how to the above machinery, have received the required PPE equipment and know to inform me numediately of any issues with the machinery or if they require further training. I authorise the reson to use the machinery detailed above.		, , ,	
2 Explained why we don't wear loose clothing and tie back long hair when operating the router. 3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings 4 Explained how to change a blade 5 Explained why the operator should set the speed and pendulum when using to cut wood. 6 Explained how to level and square the foot of jig saw 7 Explained what maintenance is required to keep jig saw in good working order. 8 Explained how to use the fence attachment 9 Explained how to switch off the band saw properly. And never to leave switch on while unattended 10 Explained why it is important not to use blunt blades and damaged attachments. 11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes, and that only trained personnel are to change blades have received the above training and fully understand every point that was explained to me. onfirm that I will wear the required PPE equipment when using the above machinery and tak leps to ensure my own safety. I will ask for further training if I need to and will immediately it is Supervisor or Manager if there are any issues with the machinery.  I will ask for further training if I need to and will immediately it is Supervisor or Manager if there are any issues with the machinery.  Date:  Confirm that I have trained the aforementioned person and that they fully understand how to be above machinery, have received the required PPE equipment and know to inform me nomediately of any issues with the machinery or if they require further training. I authorise thierson to use the machinery detailed above.			
long hair when operating the router.  3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings  4 Explained how to change a blade  5 Explained why the operator should set the speed and pendulum when using to cut wood.  6 Explained how to level and square the foot of jig saw  7 Explained what maintenance is required to keep jig saw in good working order.  8 Explained how to use the fence attachment  9 Explained how to switch off the band saw properly. And never to leave switch on while unattended  10 Explained why it is important not to use blunt blades and damaged attachments.  11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes, and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to meterism that I will wear the required PPE equipment when using the above machinery and taken the supervisor or Manager if there are any issues with the machinery.  ame:  confirm that I have trained the aforementioned person and that they fully understand how to be above machinery, have received the required PPE equipment and know to inform meters and the properties of the property of the properties of the pro		provided and used.	
3 Explained why it is important to turn off the jig saw and unplug when adding attachments or changing settings 4 Explained how to change a blade 5 Explained why the operator should set the speed and pendulum when using to cut wood. 6 Explained how to level and square the foot of jig saw 7 Explained what maintenance is required to keep jig saw in good working order. 8 Explained how to use the fence attachment 9 Explained how to switch off the band saw properly. And never to leave switch on while unattended 10 Explained why it is important not to use blunt blades and damaged attachments. 11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes, and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to me, onfirm that I will wear the required PPE equipment when using the above machinery and taken the supervisor or Manager if there are any issues with the machinery.  It is supervisor or Manager if there are any issues with the machinery.  It is understand how to me above machinery, have received the required PPE equipment and know to inform me numediately of any issues with the machinery or if they require further training. I authorise the reson to use the machinery detailed above.	2	Explained why we don't wear loose clothing and tie back	
unplug when adding attachments or changing settings  4 Explained how to change a blade  5 Explained why the operator should set the speed and pendulum when using to cut wood.  6 Explained how to level and square the foot of jig saw  7 Explained what maintenance is required to keep jig saw in good working order.  8 Explained how to use the fence attachment  9 Explained how to switch off the band saw properly. And never to leave switch on while unattended  10 Explained why it is important not to use blunt blades and damaged attachments.  11 Explained that only trained personnel use this machinery unless being fully supervised for training purposes, and that only trained personnel are to change blades  have received the above training and fully understand every point that was explained to metaphine that I will wear the required PPE equipment when using the above machinery and taken to ensure my own safety. I will ask for further training if I need to and will immediately it is Supervisor or Manager if there are any issues with the machinery.  ame:  confirm that I have trained the aforementioned person and that they fully understand how to be above machinery, have received the required PPE equipment and know to inform me mediately of any issues with the machinery or if they require further training.
