**THE INSTITUTE OF  
SWIMMING POOL ENGINEERS**

The Institute of Swimming Pool Engineers was set up in 1978 to establish an organisation for the individual swimming pool engineer (no corporate membership) to:

- foster a professional approach to the design, installation and maintenance of swimming pools, enclosures and all ancillary equipment;
- give recognition to technical skill and ability;
- engage in the education and training of persons within all sectors of the swimming pool industry;
- promote unrestricted co-operation and liaison between all persons actively involved in the industry and its allied professions and trades;
- provide opportunities for association and interchange of thought and experience amongst the members and their colleagues.

There are two completely separate routes to obtaining membership of the Institute: Either

- 1. Application for Membership for direct admission based on age and experience within the swimming pool industry for more information please see the Membership page.

or

- 2. Student Registration via the ISPE Home Study Course and examination to qualified Technician for more information please see the Student Membership page.
