

43mm STAINLESS STEEL LADDERS

Designed to look good for longer

Plastica have launched a range of 43mm stainless steel pool ladders. Designed and manufactured in the UK to conform with the current EN regulations, they are installed with the double top tread close to the pool wall reducing the risk of entrapment. Including anti-slip treads with improved grip - there is no safer option.

- **316 mirror polished stainless steel tube**
- **Suitable for salt water pools**
- **43mm diameter with 1.2mm thick wall**
- **Double top treads**
- **Stainless steel treads with anti-slip inserts**
- **Suitable for both concrete and liner pools**

Bespoke Ladders, Handrails and Balustrading available as a special order, please contact Customer Services for a quotation.

WEDGE LADDER ANCHOR
