**NO  
BRACES  
REQUIRED**

A cross section of the pool to show the location of the stainless steel strap system from the sides and across the base of the pool

- Choose from the SwimMaster through the wall or the Over-the-Wall Badu Jet counter current system to suit your requirements!
- Fully adjustable flow accessible from within the pool
- Multi-uses from exercise, massage or just fun!
- Build directly onto a level hard surface
- New strap system requires no braces - immediate build saves time and money
- Stainless steel straps for longevity and durability preventing rust & corrosion

# Exercise Wooden Pool

## Choose from three counter currents

You can choose to have a wooden pool with a counter current system to create the perfect exercise pool in your garden.

The SwimMaster™ is an ultra modern, yet minimalistic design through-the-wall counter current System. Or you can choose to have an over-the-wall system - we have two options in the BADU JET range to suit your needs.

The BADU JET range offers a powerful counter current, for endless no-turn swimming, even in the smallest pool. Thanks to the adjustable flow rate you can adapt the system to your specific needs and to the size of your pool. Because of this over the wall feature, it can be easily retro-fitted to an existing pool.

The Exercise Pool comes with our durable stainless steel strap system no steel braces are required! You are guaranteed to save time and money with a simple and quick build, as the Exercise Pool can be fitted directly on to any level, hard surface level.

### The Exercise pool standard package contains:

- An internal stainless steel ladder
- External wooden ladder
- 0.75mm (30thou) choice of liner
- Complete filtration kit
- Maintenance & Water Treatment kit
- Solar GeoBubble cover
