

HELIOS II

Solar Powered Domestic Reel System

We have continued to develop our solar powered domestic reel system with the Helios II. To improve the end stand installation the back panel is simply removed giving easy access to the securing position at the pool side.

- Totally self contained motorised reel
- For small domestic outdoor Solar Covers
- SELV 12V d.c. operation
- Automatic stopping limits
- Solar panel trickle charging
- Comes complete with end stands and tube sets
- Simple 3-way key operation
- Small Slidelock style tubes for 3.05m to 4.57m
- Large Slidelock style tubes for 4.88m to 6.1m
